Application/Control Number: 10/502,183

Art Unit: 2836

DETAILED ACTION

The examiner acknowledges a submission of the amendment filed on 1/17/2006.

The changes to the specification and amendments to claim 1 have been accepted.

The previously made 112, first paragraph rejection in regard to Claim 1 has been withdrawn in view of the amendment made to claim 1 (See Remarks, Pages 5-6).

The previously made 112, first paragraph rejection in regard to Claim 2 has been withdrawn in view of the applicants remarks (See Remarks, Page 6).

Response to Arguments

Applicant's arguments, see pages 6-8, filed 1/17/2006, with respect to Claims 1-4 have been fully considered and are persuasive. The previously made rejections of claims 1-4 has been withdrawn in view of the arguments and amendments to claim 1.

Allowable Subject Matter

Claims 1-4 are allowed.

Claim 1 recites the limitation of a an enable transistor which is biased in a nonconductive state with a second gate voltage which is obtained from a back biased powr supply line which is separate from an external power supply line.

Art Unit: 2836

Although Ye et al. (US 6,329,874) teaches an enable transistor which is biased in a nonconductive state with a second gate voltage, the gate voltage is obtained from the external power supply line. Prior art fails to teach the biased gate voltage obtained from a separate external power supply line.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Mashiko et al. (US 5,781,062)
- Huang (US 2006/0012391)
- Bhavnagarwala et al. (US 2004/0227542 A1)

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel J. Cavallari whose telephone number is (571)272-8541. The examiner can normally be reached on Monday-Friday 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Brian Sircus can be reached on (571)272-2800 x36. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
